**Participants who complete the course receive a certificate of completion**

**Discounted student rate \$40**

*Regular rate \$100*

*This technical fee charged for the course supports the learning platform and facilitation.*

### About the course

Through completion of the 12 learning modules, you will gain new skills in designing outdoor play environments, supporting children's outdoor play desires and facilitating child-centered outdoor play programming. You will be encouraged to think about, reflect upon and engage with children in providing them with outdoor play experiences that expose them to the various facets of outdoor play and environments including exploratory, non-structured, and open-ended outdoor play opportunities.

These modules may be completed at your own pace during the defined timeframe (March-June 30, 2021). They are available 24 hours a day, 7 days a week. The modules will take approximately three hours each to complete and are designed to be completed sequentially. There is also a facilitator guide who is available to assist you with questions or concerns.

Each module has interactive content that includes slide shows, interactive graphics, discussion forums, and voice recorded content. At the end of each module, you will have the option to engage in self-reflective options and an assessment activity. You may complete the assessment activity as many times as you wish. Once all 12 modules have been successfully completed, you will receive a certificate of completion to download showing 45 hours of professional development.
